

Frequently Asked Questions and Answers

Q: Will my windows be replaced?

A: Windows and doors were once thought to be the main source of air leakage in homes. However, new information has proven otherwise. Although window replacement has not been eliminated, it has been de-emphasized and is now governed by a software program comparing cost to savings. Each home will be evaluated independently during the audit.

Q: How much does the program cost?

A: Services are FREE of charge to clients who meet income eligibility guidelines. Income-eligible renters may also qualify. Owners of rental property are encouraged to consider a voluntary contribution towards the cost of the energy upgrades of their rental units.

Q: How do I receive more information?

A: Visit our website at www.caastlc.org
Or call 314-446-4436

Community Action Agency: Weatherization Assistance Program

*

The Weatherization Program in St. Louis County has been around for years and CAASTLC has weatherized thousands of homes.

*

This program is available for income-eligible St. Louis County residents.

*

In addition to saving residents money on their utility bills, the Weatherization Program has created jobs and reduced the long term cost of home-ownership.

*

Each job must pass a stringent final assessment by Certified Building Performance Analysts on the CAASTLC staff.

This brochure was prepared with the support of funds from the U.S. Department of Energy (DOE) through the Missouri Department of Economic Development—Division of Energy, Ameren Missouri, and Laclede Gas Company. Weatherization Assistance Program

The Weatherization Assistance Program helps to reduce energy costs for income eligible homes while ensuring better health and safety.

*

Our grant funds are used to improve the energy efficiency of homes using the most advanced technologies, certified auditors and tested protocols available.

*

During the assessment, we identify places where your house is losing energy. Energy assessments also determine the efficiency and safety of your home's heating system and envelope. An assessment will show you ways to conserve energy.

*

After the initial assessment, CAASTLC staff recommends the appropriate measures to be performed. Professional, bonded and insured contractors then perform the actual work on your home.

Federal Eligibility Guidelines		
2017		
Size of Family	Annual Income	Monthly Income
1	\$ 24,120	\$ 2,010
2	\$ 32,480	\$ 2,707
